

Assurance Assignment — Track 2: OWASP SAMM

Individual hand-in | SAMM specialist

Role: SAMM specialist

SAMM practice chosen — full one-line statement:

[Write the complete statement for the selected practice in context; do not enter only its name or code.]

Actual evidence from the team's practice:

[State the specific evidence observed and what it shows. Do not give only a file path or commit hash.]

Baseline scorecard: Level *[1/2/3]*.

Rationale and gap to the next level: *[Give the evidence-based reason for the score and the concrete missing practice.]*

Core improvement made:

[State what was missing before, what changed, and the concrete evidence or observed result after the change.]

Further work — select exactly two and report the result for each:

- Second SAMM practice audited: *[Practice, evidence, score, and result.]*
- Second concrete improvement: *[Gap addressed, change, and evidence or result.]*
- Effectiveness check: *[Before/after measure or concrete result.]*

Track 2 hours spent (self-reported): *[hours]*
